

Quick Start Guide

**Meet your personal NPC
magical shop assistant**

Join a Party

It's quick, easy and free to get started!

- Send your first message on either WhatsApp or Discord, a simple “**hi**” will do!
- You will be asked to create or join a party. To join an existing party ask your DM for a join code
- Optional: Say “**link dndbeyond**” to connect your character (*character sheet must be set to public*)

Browse, Buy & Sell

Find the item you need and sell your loot

- Try asking something like “**what do you have?**” to start browsing items by category.
- If you know what you want, you can just ask e.g. “**buy a longsword**”
- If you are feeling lucky, you can try to haggle too... when you are about to buy, try asking “**can I get it cheaper?**”

Party Fund & Stash

Managing your loot

- Before making any purchases, you'll need to store gold in the shared party fund. To do this just say something like **Deposit 100 gold**
- You can also **withdraw** at any time
- There is also shared space for your items! You can leave an item there with, **Stash <item name>**
- Say **see history** to view previous transactions!

Mood & Weather

Time your buys to get the best discounts

- The shopkeeper's mood changes daily, as does the weather!
- Simply ask **how's the weather**, and **how are you** to trigger the rolls.
- She uses Faerûn's *Hartos Calendar* offering discounts on special days. Ask **when's the next holiday** to plan ahead.
- Catching shopkeeper on a good day will mean you get a better deal!

Arena

Try before you buy!

- Simply say **practice fight** to set up against a straw dummy
- Say **equip <item name>** to equip any weapon in the shop!
- Say **attack** to use the weapon - and view how much damage you do with real dice rolls!

Notes

Save a note for anyone to check later

- Start any message with “**Note**” to save it
- Anybody in the party can say “**see notes**” and access them
- Stay connected with your party, even when you miss a session!

RPG Shopkeeper is a real life NPC companion for your D&D party.

**Buy, sell and haggle any D&D item.
Track gold, items and notes
automatically!**

**Enhance your adventure today for
you and your friends**
